

Pro-MarX™ Automated Framing Marking System

Precision Layout. Minimal Labor. Maximum Efficiency.

Top 7 Benefits

-  **Dual-Side Simultaneous Marking**
Precisely marks both top and bottom plates in one seamless pass.
-  **Standardized Code-Driven Layout**
Automatically marks at 12", 16", or 24" on-center spacing for studs, rafters, ceiling joists, and trusses.
-  **Cuts Layout Time by Up to 80%**
Streamlines marking with no manual tape measuring, chalk lines, or template jigs.
-  **One-Person Operation**
Allows a single crew member to perform layout tasks that typically require two or more.
-  **Bluetooth App Connectivity**
Syncs with PC, Android, or iPhone to manage wall runs and monitor performance.
-  **Store 100+ Wall Runs**
Pre-program and store 100+ wall runs with custom layouts. Instantly recall saved runs for fast, consistent framing across any job.
-  **Minimum Ladder Use**
Eliminates the need to reach or climb to mark top plates—ideal for multi-story builds.
